

Tokio Marine HCC – Cyber & Professional Lines Group (CPLG) is here to do business how you want to. You can quote and bind Cyber Liability and Technology E&O via Digital Distribution (API and our in-house Broker Portal) or contact an underwriter directly – whatever best suits your needs.

Built upon sophisticated in-house underwriting technology, our Digital Distribution leverages automated industry classification, non-intrusive network scans, and select underwriting questions to give you a quote and pre-filled application in minutes. When you're ready to bind, do it in no time. You can upload and self-approve the application to immediately generate a binder.

CPLG is dedicated to always providing you best-in-class service. Our Digital Distribution is backed by a dedicated team of underwriters ready to answer questions and support your small business growth.

API

New business quoting and binding. CPLG can integrate with in-house platforms and third-party solutions.
