

Cyber Security Insurance

In today's digital and connected world, cyber risks are an important and established part of the risk landscape. Companies rely heavily on IT systems to be operative, as well as to store and communicate intellectual property and data.

Concerned with continuity in the face of an event and subject to ever-tightening legislation, businesses find themselves further under pressure to be cyber-ready.

Cyber Security Insurance is an essential component of a healthy risk management strategy that looks to mitigate cyber threats appropriately. However, not all cyber policies are alike and finding the right coverage for your company can be challenging.

Cyber incidents can originate from inside or outside the company and they can be intentional or accidental. Businesses need to be prepared for a constantly widening range of cyber threats, such as data breach, ransomware attacks, industrial espionage and the introduction of virus into company systems, amongst others.

Whether targeted by hackers, political hacktivists, terrorists, nation states, competitors, disgruntled employees, or simply victims of innocent human error, all businesses are at risk.

At Tokio Marine HCC, we customise Cyber Security Insurance that offers comprehensive and innovative protection, including pre-incident prevention, crisis response and post-incident expertise.

The risk is real and the consequences of an event can be devastating: business interruption (BI), notification costs, third party claims and fines, to name a few, can result in significant financial loss.

Coverage at a glance

At Tokio Marine HCC, we understand that cyber-related risks are constantly evolving and that the attack surface is ever-broadening. Coverage, therefore, needs to contemplate today's threats and anticipate tomorrow's.

Our offer has been devised by our dedicated cyber underwriting, claims and product development teams and designed so that coverage can be seen at a glance. A wide range of cyber events are considered and clients can extend and adapt further coverage to best suit their set-up and needs.

Standard Coverage

The below table shows standard coverage afforded under each cyber event by Tokio Marine HCC's Cyber Security Insurance. As the nature of a cyber event can deeply impact a business, we are quick to take action. The policy responds as soon as we are alerted to the possibility of a cyber event.

- Betterment Costs
- Network Usage Fraud and Cryptojacking
- Goodwill Gestures
- PCI Penalties and Additional Costs
- Diverted Funds
- Bricking Costs

Assistance

Tokio Marine HCC not only covers the financial consequences of a cyber incident through its Cyber Security Insurance, but also partners with expert cyber-response teams worldwide to offer our international clients the best possible protection.

We believe it is not a question of 'if' but 'when' a cyber event will happen. As such, our approach to cyber assistance is threefold: [Pre-incident](#), [Event Response](#), [Post-incident](#).

Pre-incident: Cyber Menu

We understand that with proper assessment, full information, planning and training, companies can take on risk with confidence. For this reason, an extra limit afforded under the policy* can be allocated to expert pre-incident services. These can be selected from our Cyber Menu.

Be Informed!

- Executive briefing on the General Data Protection Regulation (GDPR)
- GDPR training workshop
- Threat briefings

Be ready!

- Data breach response plan
- Breach response planning exercise
- Data breach response workshop
- Media training session

Get assessed!

- GDPR health check
- Cyber vulnerability assessment

*on a case by-case basis

Event Response: Crisis management

In addition to the standard risk transfer afforded by the policy, we offer services that meet the needs of a client in the very moment of a cyber incident:

- An emergency card issued along with the policy
- Access to the **24/7 CYBER HOTLINE**
- Crisis management services as soon as an alert is raised

Tokio Marine HCC offers an extensive panel of first class IT forensic, legal and PR experts for crisis management worldwide. **Our clients also have the possibility to pre-agree any other experts of their choice.**

Post-incident: Analysis and advice

After a cyber event, our clients can receive IT expert advice. The post-incident cyber response team offers proper assessment and guidance so that businesses can confidently prepare for cyber threats going forward.

Programme Features

- Financial capacity of up to €25 million (US\$25 million or £15 million) per Cyber policy
- Primary or excess

A Smart Approach

Our centralised and unified management structure promotes real-time interaction between our transnational teams of underwriting, claims and legal professionals. The fact that our assets are consolidated under “one roof” makes us institutionally quick: quick to respond; to provide intelligent advice, innovative solutions and efficient claims handling.
