

PMR 061 Structural Waterproofing and Tanking Exclusion

Insurers, in addition to the exclusions contained elsewhere in this Policy, shall not be liable to indemnify the **Insured** under Section 1 against any claim or loss arising directly or indirectly out of or in connection with structural waterproofing or tanking.

For the avoidance of doubt, structural waterproofing or tanking is defined as taking place when a complete tank is created to prevent water (whether or not under pressure) getting into a structure.

All other terms and conditions of this Policy remain unaltered.
